John,

Thank you for your comments. As you may know the California Recreational Trails Committee members may retain their position until there are replaced, removed or reappointed. Several have already applied for reappointments. If you are interested in the Governor appointment process, you can read about it at the following site <http://gov.ca.gov/appointments>

Thank you
Wayne

I have been looking over the members of the Advisory Board list, and five members are not qualified to be Board members.

Many have applied for a position on the Board ,but nothing has been done, and there are still five ineligible members on the Board.

sincerely,

John Keyes
